

Tree Love Town Hall

Protecting Our Urban Forest - A Community Forum

Organized by the FCA*, Inspired by Nathalie Chambers

Horticulture Centre of the Pacific (505 Quayle Rd)

7-9 pm Saturday April 27th, 2019

- 🍏 Ecosystems as our relatives
- 🍏 Trees Please - Why We Need Trees
- 🍏 Infrastructure of a Different Colour: Green
- 🍏 Ecological value of Garry oak forests
- 🍏 Restoration initiatives in the Victoria region

There is a growing public concern about the future of our remnant Garry oak forests. The once expansive Garry oak forests have been reduced to scattered trees and isolated residual forest patches throughout the region. Few natural Garry oak ecosystems survive. We continue to lose trees through municipal development approvals. In this era of climate change the survival of the remaining Garry oak ecosystems is under threat.

Your Voice Can Make A Difference

In a workshop setting the forum will identify why Garry oaks are important to Greater Victoria communities, determine the challenges faced with protecting the urban forest and communicate the outcomes to local government.

Please join us for an informative evening!

Refreshments provided. Donations requested.

Help us plan. Email TreeLove@falaise.ca if you will be attending.
